

# M2003 M2003-4

more than class leading features

The Moffett Mounty truck mounted forklift is the most flexible offloading system available on the market today. You can deliver where you want, when you want, even over rough ground conditions.

### In Transit

The life span of the Mounty and truck are increased due to the unique Moffett mounting system. The front tyres act as "shock absorbers"; therefore the forks, mast or bearings are not loaded.

### Typical Applications

- Bottle gas
- Lawn turf
- Hardware equipment
- Animal feedstuffs
- Waste paper recycling

### Typical Applications 4-Way

- Timber
- Building materials
- Roofing materials
- Piping & plumbing supplies
- Plastic / Aluminium extrusions

### Model Features

- Lightweight design
- Short overhang
- Safe and simple to operate
- Suitable for most trucks and trailers
- Excellent manoeuvrability
- Long life and low running costs
- Conforms to applicable E.U. standards

- Available as 4 way model

### Standard Safety Features

- Safety door
- Flashing beacon
- Seat belt
- Differential lock
- Stabilisers

*Suitable for rough terrain applications, as moving the mast forward when unladen gives maximum stability and traction on uneven ground.*
